

Nobby Suits,

\$10, \$12 and \$15.

Top Coats, too—at the same fair prices. You can dress well at a reasonable cost if you wear the "Eiseman make."

No other make gives you garments of the same quality with as much style about them unless the price is greater.

We can convince any man who is a good judge of clothing of the truth of that statement. In fact, any judge of clothing can convince himself.

Look elsewhere, then here—the superiority of the "Eiseman make" is bound to impress you.

We make this clothing in our own factory—use the best fabrics we can buy—and employ the best tailors.

The fit and finish are perfect—and prices are so reasonable because you pay but one fair profit above the actual manufacturing cost.

Don't keep on wasting money by paying extravagant prices for your clothing—dress well, but buy right.

EISEMAN BROS.

SPANIARDS HAVE EQUAL CHANCE.

No Discrimination Against Them in Cuban Election Law.

A dispatch from Havana, Cuba, last night says: Tomorrow Governor General Wood will promulgate the election law. Several changes have been made in the draft that was adopted by the constitutional convention. The provision making it necessary for unscrubbed Spaniards to secure from the Secretary of State a document showing themselves eligible to vote has been stricken out, as it was considered conflicting with article 9 of the treaty of Paris as well as a discrimination against Spaniards desiring to become citizens. Now such Spaniards will register just as native-born Cubans.

Instead of the constitutional convention

taking charge of the elections a central board of scrutiny will receive and transmit to the governor general full reports as to all matters pertaining to the elections. Upon receipt of the complete returns, February 24, the governor general will announce the date for the assembling of the Cuban congress, the proclamation of the President and Vice President and the formal transfer of the government of the island to the government to be established. The date of the elections has been changed from December 31, 1901, to February 24, 1902.

The presidential and senatorial electors will assemble in the capitols of the provinces to elect the president, vice president and senators.

French and German Taught.

French and German is taught to boys, six to ten years old, at Mrs. Mann's school for boys, 1018 Sunderland place, near 20th street and New Hampshire avenue northwest. Mrs. Mann's school opened October 1.

ANNUAL ELECTION

Choice of Officers by Northeast Citizens' Association.

PRESIDENT TUCKER'S REPORT

Indorsement of Proposed Union Railway Station in the City.

THE PUBLIC SCHOOLS

The annual meeting of the Northeast Washington Citizens' Association was held last evening and officers were chosen for the ensuing year, all being re-elections except the vice president. The list follows: President, Evan H. Tucker; vice president, Dr. E. W. Kirby; secretary, S. S. Sowerbutts; financial secretary, J. R. Colvin; treasurer, A. H. F. Holsten. The executive committee is composed of the foregoing and Messrs. J. B. Burke, W. J. Frizzell, A. O. Nash, F. D. Foster and Dr. L. D. Walter. Previous to the election President Tucker read his annual report, which said: "By the completion of the aqueduct tunnel and new reservoir provided for by the appropriation of \$162,222.97, an ample water supply is provided for the city, it is estimated, for the next fifty years, and it affords me much pleasure to call your attention to the appropriation of \$500,000, made this year, toward the establishment of a plant for the filtration of the water, which is so very essential to the health of the people."

The Intercepting Sewer.
"In the appropriation of \$166,000 for the completion of the intercepting sewer for the contents of the eight sewers now emptying in the Anacostia river, and the appropriation of \$175,000 for the construction of the pumping station for the disposal of all the sewage of the city, all the work in East Washington contemplated by the plans of the board of engineers, appointed by President Harrison in 1890 is provided for, and when the work is completed the sanitary condition of East Washington will be very materially improved. While we are providing for an adequate supply of clean, pure water and for the thorough disposal of all waste matter, we must not overlook the fact that one of the most necessary attributes to good hygienic conditions is pure air, and it is impossible for the city to have good ventilation while the city is bordered, as it is on the east, by the malaria-breeding marshes of the Anacostia river; and with a view to the early elimination of this great obstacle to the health of the people the most strenuous efforts will be made to secure legislation by Congress, so that its next session will provide for the reclamation of the flats."

"By direction of Congress a commission composed of three eminent landscape architects has been appointed to prepare plans for the improvement of the parks of the national capital, including the Potomac Park, and the view to be made on ground reclaimed from the Anacostia flats, with a view to making the park feature of this city compare favorably, in beauty and extent, with that of any other city of the world."

Union Railway Station.
"On February 12 of this year acts were approved providing for new and commodious terminals for all the steam railroads entering the city, and for the abolition of all grade crossings in the District."

"The enactment of these laws seemed to bring the grade crossing question to a conclusion, but owing to the fact that before any steps were taken to carry out the provisions of the acts the two companies concerned contracted with the city for the taking under consideration a proposition for combining their passenger traffic and erecting a grand union station on the site of the proposed site for the new railroad, the city in removing all railroads entering the city, and the accommodation of all the steam railways entering the city."

"The erection of a union station is the ideal solution of this vexatious question, and has been advocated by the citizens for many years. It would certainly be advantageous to the city in removing all railroad tracks, structures and obstructions from the mall, and relieving the surface of the streets of a large portion of the traffic, by carrying it through tunnels; and while the citizens of Northeast Washington are of opinion that the natural and most convenient location for such a station would be in South Washington, we will welcome any alteration in the plans which will relieve the mall of obstructions, and promote the general welfare of the city, even if the union station should be located in this section—provided that in making the alteration no plans shall be considered which will be less agreeable and advantageous to the northeast section than the plan provided by the act of February 12."

Business High School Building.
"I am pleased to note that the board of education has recommended an appropriation for the erection of a suitable building for the accommodation of one of the most important branches of our educational system, the Business High School."

"With the completion of the new school building in Rosedale, and the one provided for in Trinidad, the present needs of this school for school accommodations will be fairly well provided for. I desire to call your attention, however, to the need of a building in this section for instruction of the higher branches of manual training."

"The citizens of the District are to be congratulated on the fact that after striving for about twenty years to secure a reduction in the price of gas to one dollar per one thousand cubic feet, by the operation of a law enacted in 1890, the price was reduced to that figure July 1st last. This is a matter of special gratification to this association, as it was principally through the efforts of this committee on legislation that the law was enacted."

Inequality in Assessments.

"I respectfully call the attention of the committee on assessments to the inequality existing in the assessment of real estate in the District, and to the necessity of providing some reform in the law for the exemption of property from taxation."

"The police and fire departments are reminded of the necessity for a larger detachment of policemen for this section, and I suggest that every effort should be exerted to assist the commissioners and the superintendent of police in their efforts to secure an increase in the force, thus making it possible to place more men in this section."

"The attention of the committee on water, light and sewers is directed to the desirability of having Maryland and Massachusetts avenues lighted by electricity, and I recommend that efforts be made to secure the necessary appropriation to provide for the lights."

Report of Committee on Schools.

Mr. F. D. Foster, chairman of the committee on schools, submitted a report in which he said he desired to call the attention of the school committee within the last two years. We have, he said, succeeded in getting two new buildings, one in Rosedale and one in Trinidad, and two additional kindergartens, one located on 12th and Maryland avenues and one at 15th and streets.

"Our supervising principal, Mr. W. B. Patterson," he continued, "expressed to me his thanks for the assistance our association has been to him in his work. He says that not for the first time since he has been supervisor of this division, all half-day schools below the fourth grade have been abolished, and if the Trinidad school is finished by next September there will be no need of half-day schools above the third grade for some time to come. The present condition of the schools is no worse than in other sections of our city, which certainly was not the case two years ago. There is much to be done in the building, and we need more night schools, but the association would feel encouraged at the work already done and aid the committee in prosecuting the work in the future."

FALL AND WINTER OPENING

An Event of Unusual Importance.

OUR FALL OPENING has been a little delayed on account of the extensive improvements going on during the past two months, but we are glad to announce today the completion of the great changes made and our readiness to show an incomparable stock of Fall and Winter wearables in every department of our business.

AS A SOUVENIR OF THIS EVENT

We believe that nothing could be more acceptable to those who favor us with their patronage than exceptionally low prices for reliable values. In fact, we have resolved to make it a three days' season of Unrivalled Bargains. Hundreds of cases of New Fall Goods have been received during the past few days, and every article in our establishment will be marked at Under Prices—prices ranging from one-third to about one-half their real value.

Samuel Friedlander & Co. Credit if Desired. 416 7th St. N. W.

HYATTSVILLE AND VICINITY.

Town Council Meets—Board of Trade Also in Session.

Special Correspondence of The Evening Star.

HYATTSVILLE, Md., October 15, 1901.

The town council held its regular monthly meeting last evening at the office of Mr. Arthur Carr, justice of the peace. Dr. Joseph R. Owens, president of the council, was in the chair and Mr. Clarence H. Walker served as secretary. The main topic for discussion was the action of Mayor Tierney in refusing to sign a check in payment for the construction of a reservoir.

The payment was ordered at a special meeting of the council, but when presented to the mayor for his signature he refused to sign it, saying that the work on the reservoir had not been perfect and that the reservoir was not tight, as it allowed water to seep through. After protracted discussion the matter was referred to the town council for an opinion respecting the power of the mayor in the matter. A report is expected from the attorney at the council's next meeting Monday evening.

A motion was made by Councilman Emmons that a water main be laid down Block street, so as to furnish both water and fire protection to residents living on that street. This was referred to a committee, composed of Councilmen Bellis, Wells and Emmons, to make a report next Monday evening. Motions were adopted for the placing of two lamps on Academy avenue and two on Central avenue, and for the purchase of a set of record books for the waterworks.

Mr. N. A. Dunning, president of the board of the Hyattsville Public Library, held a meeting last evening at that place with a proposition from certain capitalists to establish an electric light plant. He made a request upon the council that it consider the matter at its next meeting. Mr. William P. Magruder, a member of the board of trade, addressed the council regarding a sewerage and a light plant. He considered the crossing of the Baltimore and Ohio Railroad Company.

The board of trade held a meeting last evening at Magruder's Hall, with President Dunning presiding. A communication was read inviting the board to attend a banquet of the Business Men's Association of Washington city to be held Thursday next. After discussions on several subjects of minor industrial interests the meeting adjourned until tomorrow evening, when a meeting will be held at the office of Rogers & Fadden for the consideration of business matters.

The officials of the Hyattsville Public Library held a meeting last evening. A committee, consisting of Mr. William P. Magruder, Mr. J. B. Magruder and Mr. Jackson H. Ralston, was appointed to nominate officers for the ensuing term. The committee will report at the next meeting to be held the first Monday in November. Mr. J. B. Bradshaw, president of the library, presided, and Mr. William P. Magruder acted as secretary.

The confederate veterans of Company B, 1st Maryland Cavalry, residing here, held a meeting last evening at that place. The financial matters in connection with the reunion held a few days ago.

The republicans of Seabrooke held a very enthusiastic meeting at that place Saturday evening. The meeting was attended by a large crowd from the surrounding country, and was presided over by Mr. B. B. Blinn. Among the speakers of the evening were E. T. Benton, George Calvert, H. S. Steele, E. F. Blinn and Moses Harris. The policy of the democrats in the disfranchisement of illiterate voters was vigorously attacked, and those present were appealed to to use every effort in their power by which to defeat what they termed "a political scheme and a master who originated it." Club held a meeting last evening at its quarters, with Mr. Joseph Dunning presiding, and Mr.

DAINTY FOOTWEAR

AT TEMPTING PRICES.
